

Reinald Adrian D. Pugoy
Director & Assistant Professor
UPOU ICT Development Office
UPOU Headquarters, Brgy. Maahas, Los Baños, Laguna

Good day, Sir Reinald Adrian D. Pugoy!

I am writing to express my keen interest in the Software Developer Internship position at the UPOU ICT Development Office, available this coming June/July during the university midyear period. My name is Patricia Mae I. Vargas, and I am a junior-year Computer Science student at the University of the Philippines Los Baños (UPLB).

I am dedicated and passionate about the field of computer science, with comprehensive skills in web, mobile, and software development, encompassing both frontend and backend technologies. My academic coursework and diverse projects have provided me with hands-on experience, particularly in full-stack web development. I am proficient in the MERN stack (MongoDB, ExpressJS, NodeJS, React), Python, MySQL, and JavaScript, and have expertise in using VS Code and GitHub for version control and collaborative development.

In addition to my technical skills, I have demonstrated a strong work ethic and a proactive approach in all my endeavors. I have successfully completed several team projects where I honed my collaboration and problem-solving skills. For instance, in my recent project at UPLB, I led a team to develop a web application that streamlined administrative tasks, significantly reducing processing time and enhancing user experience.

I am particularly drawn to the UPOU ICT Development Office because of its commitment to innovation and excellence in technology-driven education. I am excited about the prospect of contributing to your team and learning from the esteemed professionals at UPOU. I am confident that my technical capabilities, combined with my enthusiasm and commitment, would make a valuable contribution to your projects and initiatives.

I am reliable, highly motivated, and eager to take on new challenges. I am confident that this internship will not only allow me to apply my current skills but also help me grow professionally by exposing me to real-world applications and cutting-edge technologies.

I have attached my resume for your review. Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your company and further develop my skills through this internship.

Best regards,

Patricia Mae I. Vargas
